(V2L)⁽⁴⁾**

(1) In WLTP combined cycle. (2) 288 dm³ (VDA standard). (3) Optional on 65 hp versions. (4) Vehicle to load is only available on the extreme version.

ALL-NEW DACIA

With a striking look and packed with interior equipment. Dacia's bold electric vehicle is causing a stir. Strong and stylish, its compact SUV look stands out from the rest and asserts itself from every angle with its high ground clearance, reinforced wing and grille protections, and 15" wheels.

The emblematic Y-shaped lighting signature energises the front-end, which is just as ready to devour the city as it is to explore the countryside.

Urban-inspired front bumper

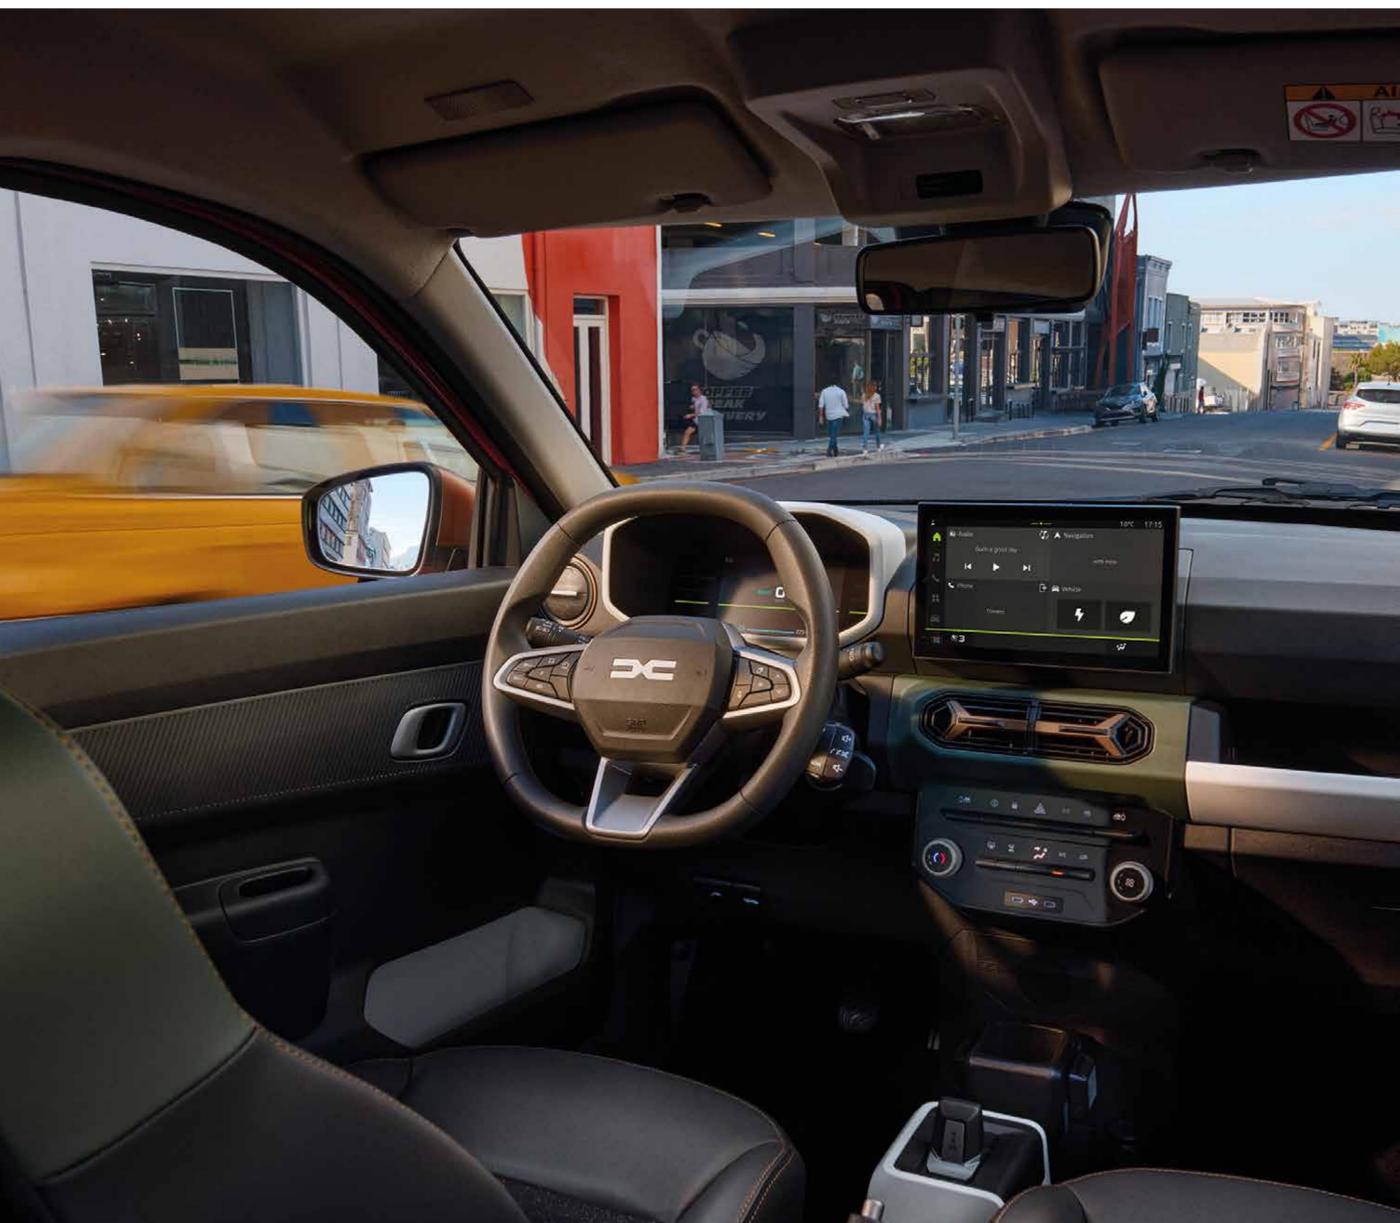

LED lights with Y signature

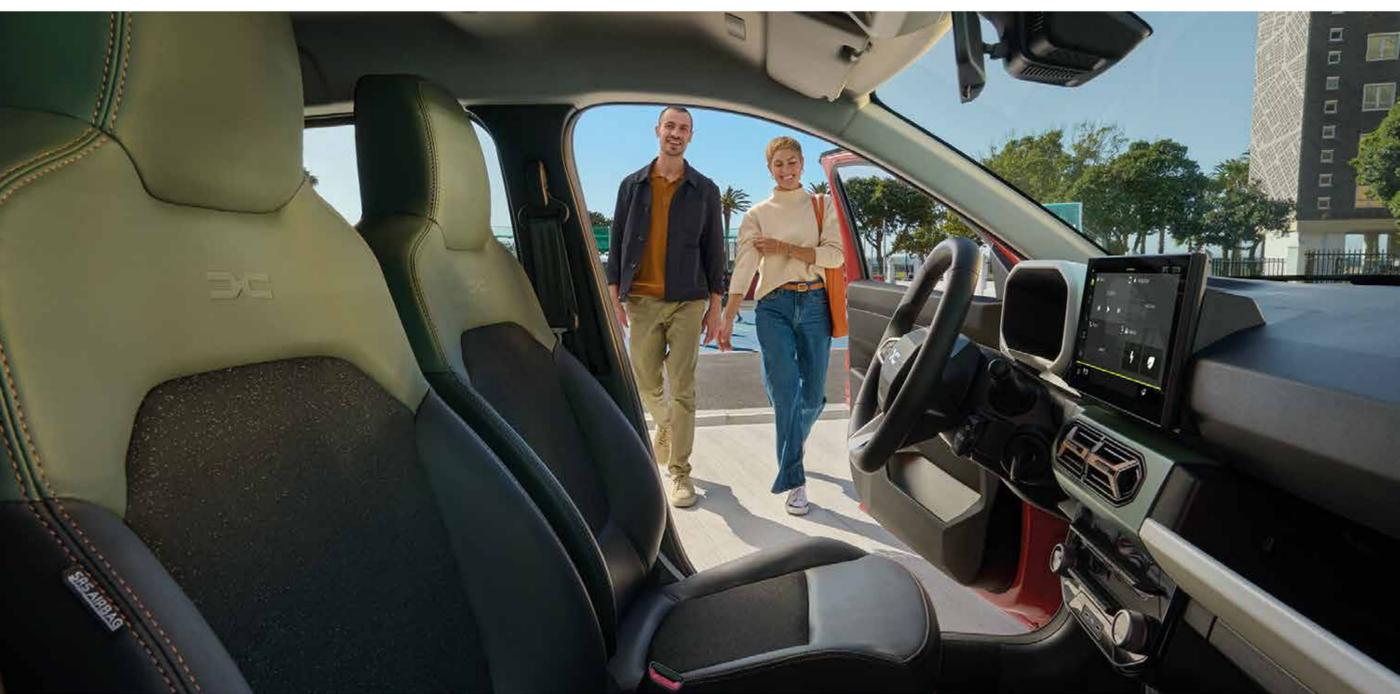

Side protection

INTERIOR EXPERIENCE

With everything close to hand the interior focuses on ergonomics, aesthetics and perceived quality. The coloured elements and backlit controls add to the personality of the interior.

The functional design of the dashboard is structured around the 10.1" multimedia display and the 7" digital on-board computer on which all vehicle information is shown. The e-shifter gear selector, height-adjustable steering wheel and range of upholstery creates a distinctive style.

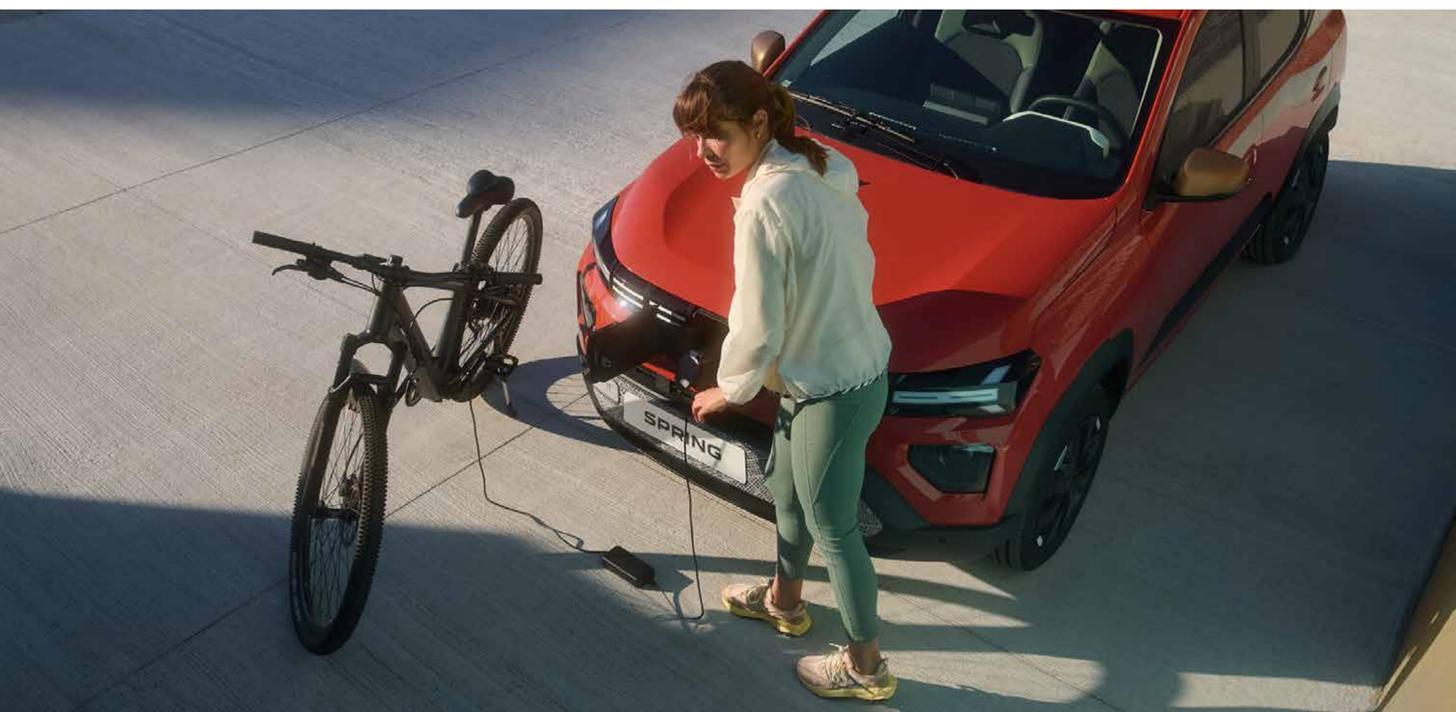

e-shifter gear lever

ELECTRIC LIFE

Silent and responsive driving, electric mobility is within everyone's reach with all new Dacia Spring. With its dual engine offer of 45 HP or 65 HP choose the one that suits you best.

In terms of performance, you can cover 225 kilometers in the WLTP combined cycle or 305 kilometers in the WLTP urban cycle without needing to recharge, go from 20% to 80% range in 45 minutes with the rapid charger*. The new regenerative braking mode, "B Mode", recovers energy when you take your foot off the accelerator, and also when you apply the brakes to make driving easier. You can also take advantage of *power to object*, two-way charge V2L (Vehicle to load) technology that lets you connect your everyday electrical appliances to your all new Spring.

Power to object, two-way charge V2L (Vehicle to load)*

*Standard with Electric 65 motor

EVEN MORE CONNECTED

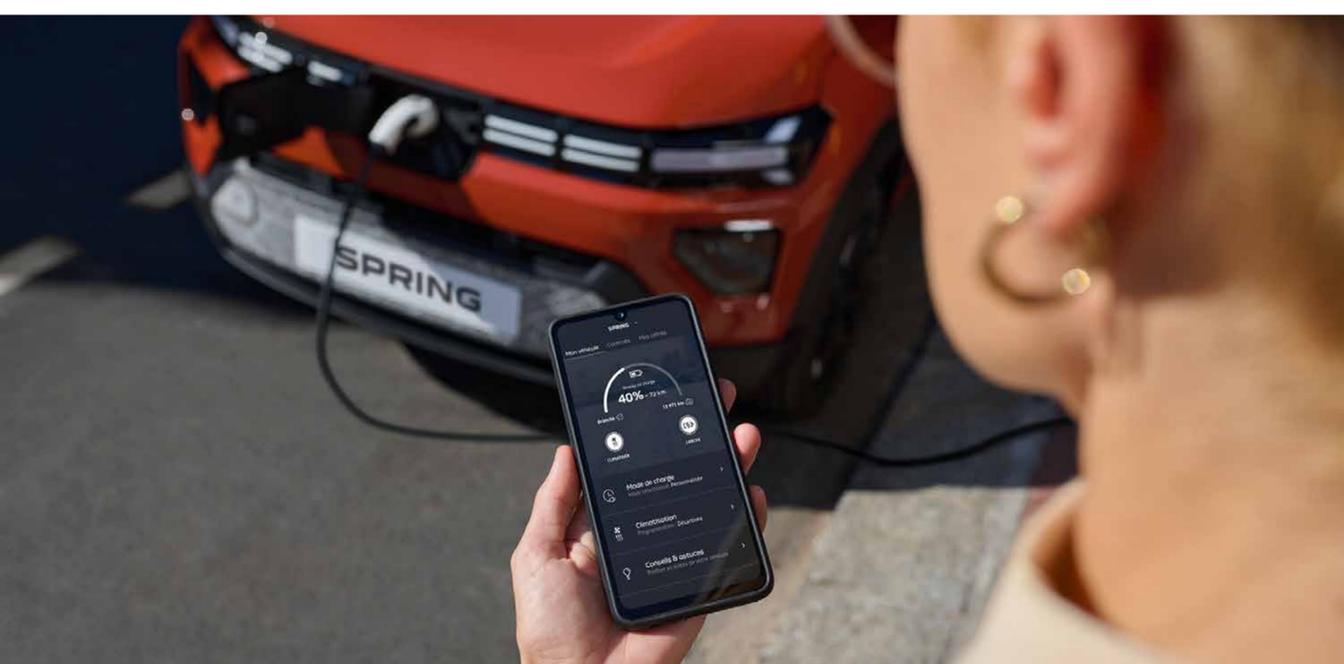

Your journeys go without a hitch thanks to the Media Nav Live multimedia system, which simplifies your daily life. On its large 10.1" touchscreen, get navigation support with always up-to-date mapping and real-time traffic (included for 8 years). And to make your journeys easier, enjoying wireless smartphone mirroring (Android Auto™ or Apple CarPlay™). Finally, get comprehensive driving and consumption information on the new 7" digital on-board computer.

Also enjoy convenient connected services so you can schedule your charging or preheat your car remotely* – all via your smartphone.

Always up-to-date navigation with real-time traffic

MY Dacia application

* Available depending on the country on versions with the central 10.1" screen. Android Auto™ is a trademark of Google Inc. Apple CarPlay™ is a trademark of Apple Inc.

COMPACT AND SPACIOUS

All New Dacia Spring defies the laws which govern interior space with four comfortable seats. It's carefully designed interior offers numerous storage areas to accommodate your personal items, with up to 32.7 litres of easy-to-reach capacity.

And for even more possibilities, a wide range of accessories such as a exclusive cup holders and a clever frunk under the bonnet, which provides an additional 35 litres of useful volume.

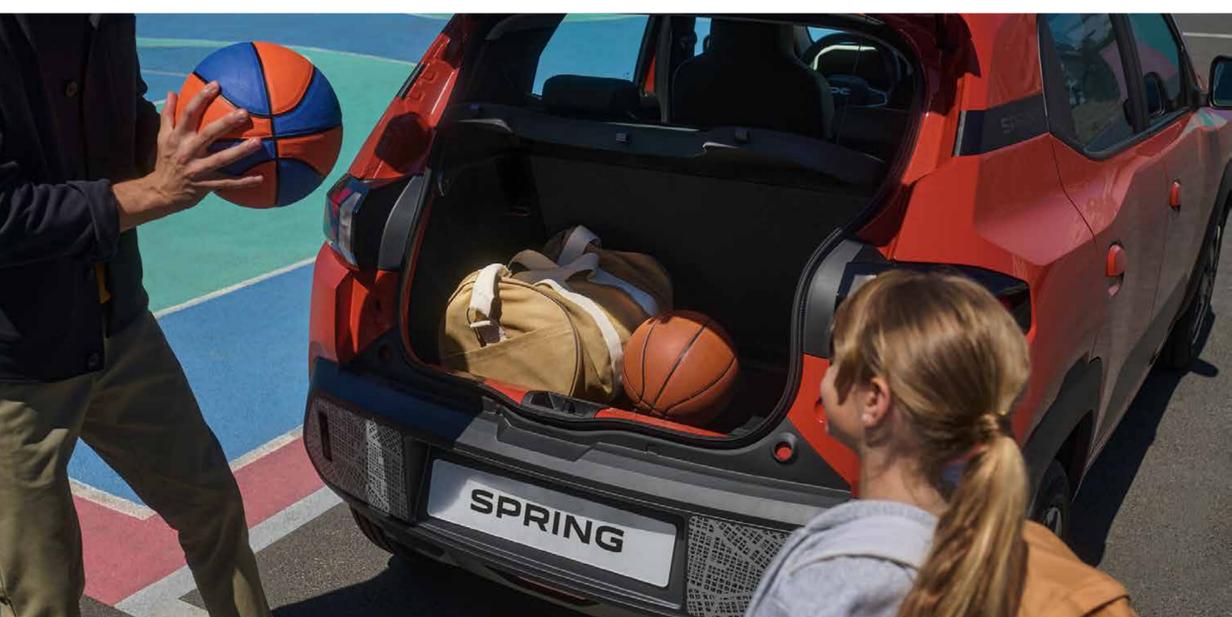

With the best storage capacity in the category, its record 308-litre boot and its YouClip multi-use attachment system the all new Dacia Spring has the ability to make your everyday life easier.

YouClip multi-use attachment system

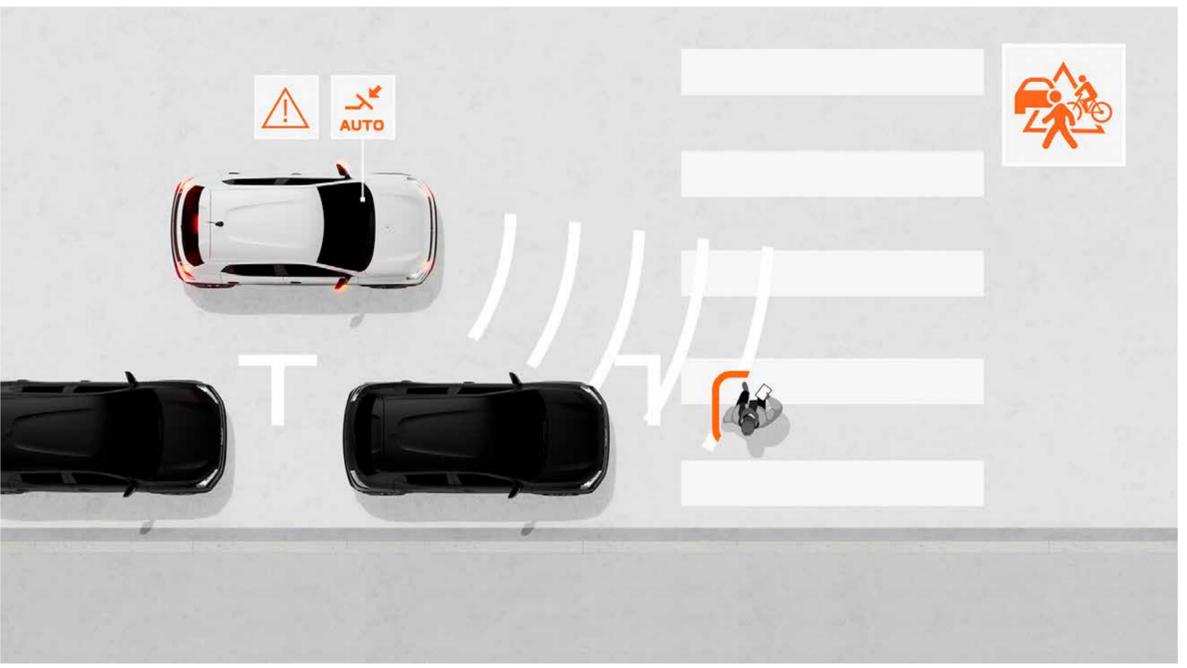

Additional 35-litre frunk available as a accessory

Best in class boot capacity of 308 litres

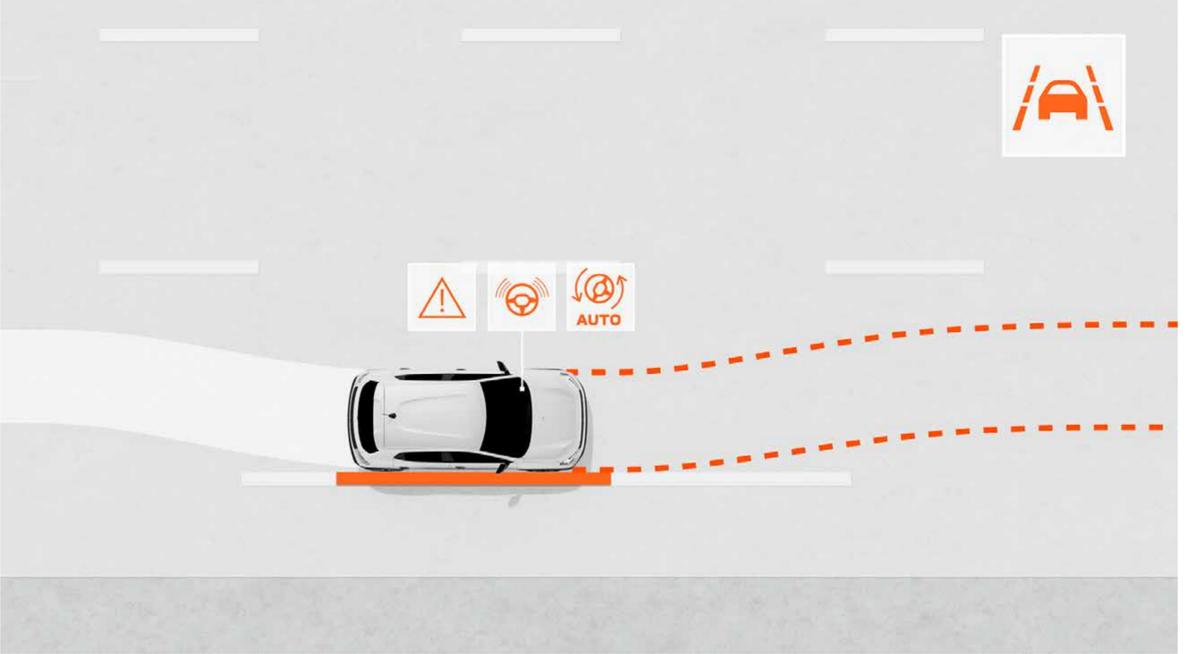

DRIVE IN COMPLETE SAFETY

New assistance systems are featured in the All New Dacia Spring to make driving even easier while constantly improve your safety. With the new My Safety button, manage some of these assistance features at any time. With Dacia, drive with peace of mind.

AUTOMATIC EMERGENCY BRAKING WITH PEDESTRIAN/CYCLIST DETECTION

This system prevents the risk of frontal collisions involving other vehicles, pedestrians or cyclists straight ahead and at junctions. It alerts the driver and can automatically brake the vehicle if necessary.

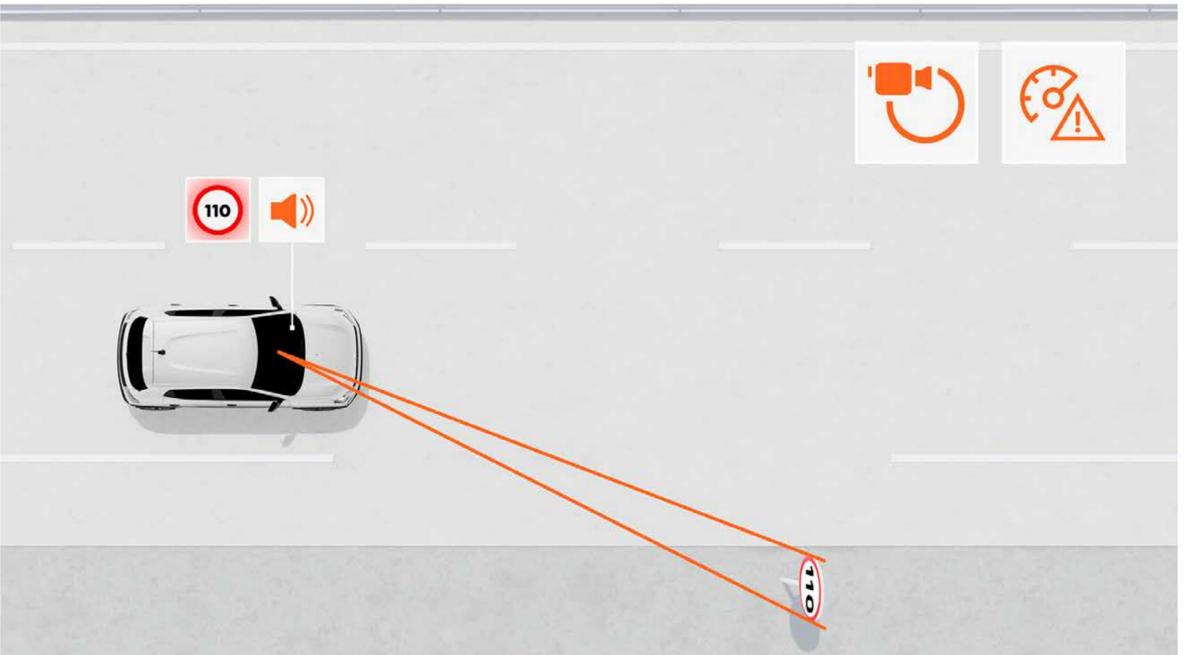

LANE KEEPING ASSIST

This assistance system monitors the vehicle's path in its lane and corrects it if necessary by automatically steering it.

DRIVER FATIGUE DETECTION SYSTEM

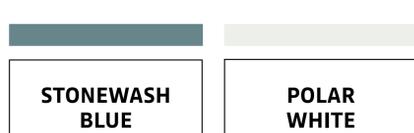

This assistance system warns the driver if fatigue is detected and prompts them to take a break.

TRAFFIC SIGN RECOGNITION WITH SPEEDING ALERT

This system provides a real-time indication of the maximum speed on the road and warns the driver if they exceed the speed limit with visual and audible alerts (which can be disabled).

06. ENGINES

	Electric 45	Electric 65
ENGINE		
Electric engine technology	Permanent magnet synchronous motor	
Fiscal rating (hp)	2	
Max. power kW EEC at engine speed of (rpm)	33 at 2,521-8,200	48 at 4,057-6,000
Max torque Nm EEC (m.kg) at engine speed of (rpm)	125 at 0-2,521	113 at 500-4,057
GEARBOX		
Gearbox type	Gearbox with a single gear ratio speed reducer	
BATTERY		
Usable capacity (kWh)	26.8	
Technology	Lithium-ion	
PERFORMANCE		
Maximum speed (kph)	78	
0-100 kph (s)	19.1	13.7
0-50 kph (s)	6	3.9
CERTIFIED DRIVING RANGE WLTP*		
Certified driving range in City WLTP (kilometers)	305	
Certified driving range in Combined WLTP (kilometers)	225	
CERTIFIED ELECTRICITY CONSUMPTION WLTP*		
Certified consumption in combined cycle (Wh/km)	141	135
Certified consumption in city cycle (Wh/km)	115	115
CHARGING TIME		
On-board charger	Single-phase from 2 kW to 7 kW	
2.3 kW domestic socket (single-phase 10 A) (20-100%)	10h 50 min	
7.4kW wallbox (32A single-phase) (20-100%)	4h	
30 kW DC rapid charger (20-80%)	-	45 min**
POWER SAVING FUNCTIONS		
ECO mode	Yes	
CHASSIS - STEERING AND AXLES		
Front axle type	Pseudo-MacPherson with wishbone arm	
Rear axle type	H-type torsion beam with programmed deflection suspension and spiral springs	
Type of steering	Power assisted steering	
Turning circle, kerb-to-kerb (m) (official measurement)	9.63	
Steering wheel turns (lock to lock)	3.36	
BRAKING		
Front: ventilated disc Ø (mm)	238	
Rear: drum/solid disc Ø (mm)	170	
Brake servo size (")	8	
WHEELS AND TYRES		
Tyre sizes (that causes variations in the level of CO ₂ inside a powertrain model)	165/70 R14	165/65 R15
Wheels (tyres + rims) all versions	14" wheel rims	15" wheel rims
WEIGHT (KG)		
Max kerb weight	976	984
Kerb weight on front axle/on rear axle	531/445	539/455
Payload	331/381	
Gross vehicle weight (GVW)	1,315	

* WLTP (Worldwide Harmonised Light Vehicle Test Procedures): this new protocol provides results much closer to those found in daily use compared with the NEDC protocol. Range and fuel consumption are approved according to a standard, regulatory method. It is identical for all manufacturers and allows vehicles to be compared. ** Optional.

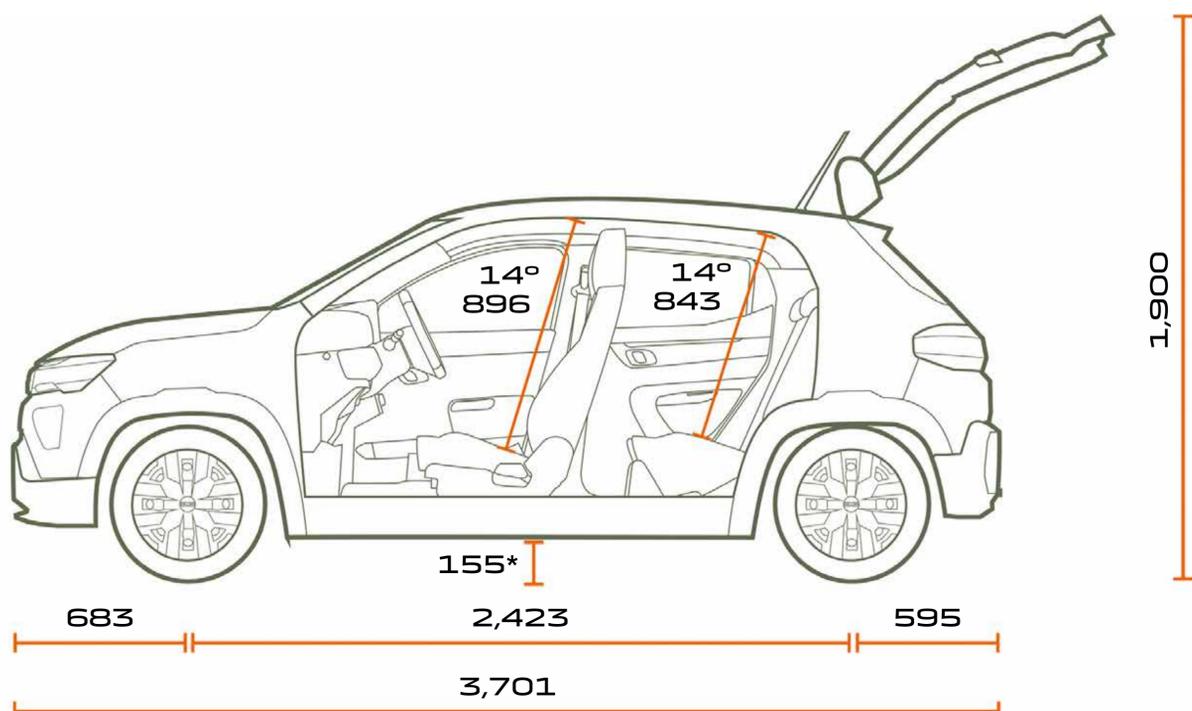

06. DIMENSIONS

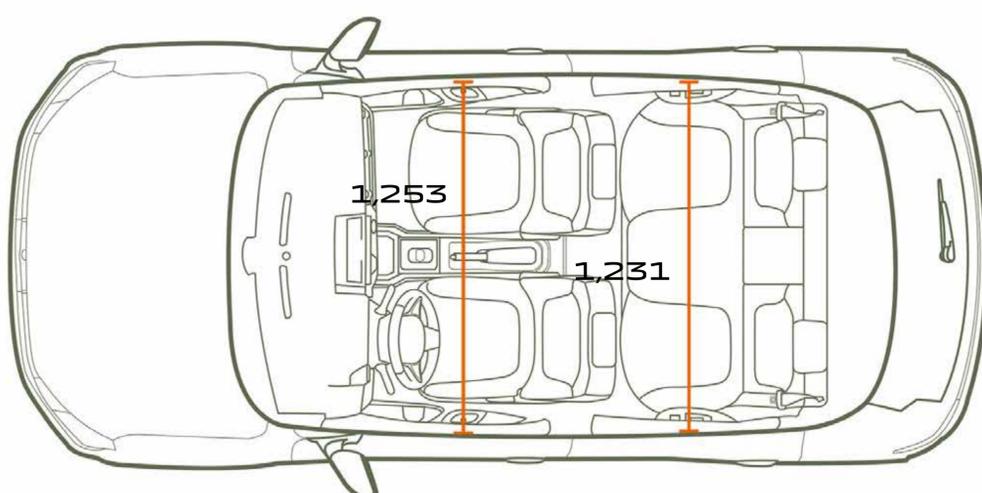

FRONT VIEW

REAR VIEW

SIDE-FACE VIEW

TOP VIEW

**BOOT VOLUME
(IN DM³ - VDA STANDARD / LITRES)**

Minimum boot volume (ISO 3832 standard)	288/308
Maximum boot volume behind row 1 seat, with row 2 seat folded down (ISO 3832 standard)	975/1,004

Dimensions in mm. * With 15" wheels.
